About the service:

Our Core HR Health & Safety consultants will complete an initial check at your site to assess any risks and liabilities. We then provide a best-practice plan to manage your Health & Safety processes.

Effectively managing Health & Safety (H&S) is essential to protect your employees, and your business. The latest Health and Safety legislation means that your business cannot afford to be complacent when it comes to Workplace Safety.

Core Health & Safety is our best practice H&S solution - we keep you up to date with all legislation changes, make sure your business remains compliant and, most importantly, your employees stay safe and healthy.

In the event of an incident, you will also have access to our support team and 24/7 access to our Significant Incident Helpdesk.

Talk to one of our Consultants to ensure you are providing a compliant and safe workplace environment
